# CALIBRE

THE PERFECT PROFILE

Introducing the Calibre uPVC Window and Door System

# A range to suit all homes

Whatever you need from a modern uPVC window or door, you will find it with Calibre.

Available in a wide range of window, door and conservatory styles – Calibre offers exceptional reliability, excellent functionality and all the usual well known benefits associated with uPVC - security, thermal efficiency, low maintenance, excellent acoustics, quality and performance.

## Windows

A stylish range of uPVC Casement and Tilt and Turn Windows to compliment any home – with unfussy lines and a clean white, glossy finish. Woodgrain and painted finishes are also available to further enhance the character of your home.

## Doors

A range of practical and stylish residential doors that perfectly match the windows, tailor made to your individual requirements. Front doors, back doors and french doors are available. They all feature flag hinges, multi-point locking systems and heavy duty reinforcement as standard. A choice of Part M mobility door thresholds are also available that comply with building regulations.

## Conservatories

Whatever the style of your property there is a huge variety of uPVC conservatories available – Victorian, Edwardian, Gable End or Lean-to. Our range of conservatories encompass all the benefits of our windows and doors, creating an additional living space at a realistic price.

# With stunning performance and fantastic versatility, that's Calibre

Secured by Design

Official Police Security Initiative

# Complement your Calibre profile with one of our stunning laminate foil finishes or RAL colours

A choice of traditional and contemporary woodgrain finishes are available to give your windows and doors a natural timber appearance.

For the modern properties, a range of painted finishes can offer a new and contemporary look for your home.

# A multi chamber, 70mm modern window and door system

## EXCELLENT THERMAL PERFORMANCE

Outstanding thermal performance. Our multi-chamber profiles offer oustanding thermal performance and help ensure a warmer living environment and reduced heating bills. Our Calibre windows easily achieve an Energy Rating A.

## ENHANCED SECURITY

Manufactured with the latest high performance handles and locking mechanism, our window can be specified to Secured by Design status providing you with peace of mind in the knowledge that your windows are police preferred products and have been certified by the UK Police Association.

## IMPROVED ACOUSTICS

By combining Calibre's multi-chambered insulated frames with our energy efficient double glazing, noise levels from outside will be significantly reduced.

## SUSTAINABILITY

Clean, glossy and beautifully bevelled our windows and doors are low maintenance without the need for painting like their timber counterparts. Designed and extruded in Britain by leading profile supplier REHAU, Calibre is 100% recyclable and 100% lead free. Calibre complies with all of the latest building regulations.
