

Casement Window with false mullion

Dear Customer,

- With immediate effect, the charge for a false mullion to be added to a casement window (of any design) will increase to £50. The previous price of only £10 was found to be disproportionate to the time taken to fabricate this product.
- To recap a previous bulletin, please be aware that the discount that is applied to the Vertical Sliding Window will NOT be the same as your normal trade discount. (applied to Casement Windows & Residential Doors). So in the first instance, & to avoid confusion please contact our Estimating Department & they will answer any queries & advise you on your discount. A pricing sheet & order forms are also available upon request.
