

A collection of  
stunning doorsets  
designed to  
complement the  
authentic styling of  
the home

the **PERIOD DOOR**  
collection

Our Period Door Collection features a selection of designs that emulate the features of properties from the 1700 - 1900s.

This timeless collection of doors replicate the true timber door used in properties from five historical eras throughout this 300 year period. We have taken our inspiration from the Georgian, Victorian and Edwardian architectural styles, as well as being influenced by door designs found on properties with an Art Deco appearance and common home styles from the 1930s.

These uPVC doors rival any traditionally designed composite door and are perfect replacements for the wooden doors found on older properties.

- PVCu doors bespoke to the original property type
- Choice of knockers, finger pulls and centre knobs complete the traditional look
- Variety of glass designs
- Fitted with Sigma 3d Adjustable Hybrid Hinges
- Heritage slam shut door locks for authenticity
- Colours available (includes matching frame):  
White Ash, Clotted Cream, Irish Oak, Golden Oak, Mahogany, Rosewood, Schwarzbraun, Anthracite Grey, Pearl Grey, Elephant Grey, Ruby Red, Steel Blue, Racing Green, Chartwell Green.

## our DOORS • • • •

### the **GEORGIAN**

(design influences by properties built 1720-1820)

**THE GEORGIAN** door is a grand, panelled door found on properties built between 1720 and 1820. A classic style influenced by Roman architecture and consisting of six panels, these doors would be typically found sat between two columns with a decorative fanlight above.

## the VICTORIAN

**THE VICTORIAN** door is a perfect replacement for the mock gothic styling of doors from the 1830-1901 era. The elaborate coloured design of the two sealed units positioned underneath three smaller bevelled units at the top creates the ornate glass effect found on a typical Victorian door.

*(design influences by properties built 1830-1901)*

## the EDWARDIAN

**THE EDWARDIAN** door is a replica design from properties built in 1901-1918. Not quite as lavish as the Victorian, this panelled door is finished with a lead window design to accentuate the appearance of this period of house.

*(design influences by properties built 1901-1918)*

## the ART DECO

**THE ART DECO** door from this collection is designed to replicate the streamlined appearance of doors found on properties built between 1925 and 1939. A simple, modern effect of parallel straight lines created this stunning door and would definitely not look out of place on a house built with an Art Deco edge.

*(design influences by properties built 1925-1939)*

## the 1930S

**THE EDWARDIAN** door is a replica design from properties built in 1901-1918. Not quite as lavish as the Victorian, this panelled door is finished with a lead window design to accentuate the appearance of this period of house.

*(design influences by properties built in the 1930s)*

When designing these doors, many hours were spent researching each era of building styles. Once the designs were decided the fabrication process was put in place to combine mechanical joints, welding plus the use of astragal bars to create the overall effect.

With many authentic features required to replicate a true timber door, it was down to the ironmongers for inspiration, settling on traditional styled handles, knockers and door knobs. The introduction of a slam shut lock also provides the option to not have a handle on the external face. This all culminates into a collection of doors that will confidently grace the front of any period building.
