

SMART TECHNOLOGY - NUKI

The **Ultion Nuki** smart technology allows you to control your front door from your phone, keypad, fingerprint or keyfob. Your smart phone becomes your key (keys are still available), opening your door automatically when you arrive home and locking it as you leave.

There is also the option for keypad entry, by fingerprint or by pre-set code, or simply press the button on the programmed keyfobs available with your Nuki locks.

- ❖ Integrated Wi-Fi allows you to unlock the door from anywhere and pair the device with various smart home systems including Amazon Alexa, Apple HomeKit and Google Home
- ❖ Control your door lock from your phone, Bluetooth key fob, wireless keypad or fingerprint recognition
- ❖ Comes with a physical Ultion key for manual operation and peace of mind
- ❖ Auto-unlock on approach
- ❖ Send electronic guest keys from anywhere
- ❖ Rechargeable battery can be removed for charging or recharged by plugging a USB-C cable directly into your door
- ❖ Use existing external handle – no drilling or wiring
- ❖ Fitted and working to doors in minutes
- ❖ Internal Nuki system available in white or black.
